

Request for Quotations
USAID's Tourism For All Project

Chemonics International Inc., under the USAID's Tourism For All Project, is seeking expressions of interest to purchase equipment and furniture for Laletek Nanis Bematua - Dare.

USAID's Tourism For All Project is helping Timor-Leste diversify its economy by promoting eco-friendly tourism based on the country's valuable natural and cultural assets, using an inclusive and sustainable approach. To achieve this vision, the project focuses on two main objectives. The first is to ensure that institutions, policies and laws are in place to fully implement the national tourism policy launched in 2017. The second objective is to promote sustainable private sector tourism investments and participation by Timorese communities, local and international NGOs, associations, and others, and create replicable models of sustainability and best practice. The project aims to empower Timorese people to deliver exceptional visitor experiences and mitigate potential negative environmental and cultural impacts.
